## ABOUT US

NATCON is amongst the top nutritional supplement manufacturing companies in the world today, with 34 years of rich history into Innovative Nutraceutical. Equipped with Highly qualified Professional team of Doctors , Nutritionist and health care professional in our Research & Development department, Manufacturing facilities at Natcon is proud of being one of the best in the nutritional supplement Industry producing specialty dietary supplements backed up with 3D's Discover, Develop and Deliver.

Production at Natcon is equipped with the latest & superior facilities where Technology merges with the Nature, an innovative concept. Our R&D team does the testing and related analysis to achieve a fully tested product to be manufactured for your specific business needs. We also provide Labelling, Licensing & all related solutions taking care of your business interests.

Manufacturing capacity at Natcon is excellent & huge, it can even cater to high value Billion Dollar customers as well as (start up) customers who have average business volumes. Natcon offers make pure business sense for those who look for an efficient & effective solution, saving costs and hassles of managing such a sophisticated manufacturing setup. Managing vendors & the supplies, quality standards and timely delivery is the commitment that Natcon gives to it's business clients making a perfect business model.

## KEY HIGHLIGHTS

**42.80** million capsules p.a.

Total commercial production of many products

Commercialized

**85+**

Products

**18+**

Ongoing registrations of the products.

**30+**

Compositions with Clinically Ingredients.

## OUR USP's

- We offer science driven concept formulations to cater to your market demands.
- Automated manufacturing process with least human point of contact.
- Production area is maintained under AHU with epoxy flooring. Complies WHO-GMP, ISO 22000-2018, HACCP.

## OUR PROMISE

- We offer product development services for proof – of – Concept.
- Complete regulatory support and Market Compliance throughout life cycle.
- We value and secure your intellectual property.
